DELFIN LNG ANNOUNCES COMPLETION AND PUBLICATION OF FINAL ENVIRONMENTAL IMPACT STATEMENT

HOUSTON, TX – Delfin LNG LLC (“Delfin”) today announced the completion of the project’s Final Environmental Impact Statement (“FEIS”), with publication effective as of November 26, 2016. The next step will be for the Maritime Administration to issue a Record of Decision on or prior to March 14, 2017.

Frederick Jones, CEO of Delfin’s parent company, commented, “We continue to be pleased with the significant permitting progress achieved by the Delfin LNG project. I would like to thank the numerous individuals and government agencies that have played a critical role in the process, and I look forward to continuing our work together.”

About Delfin LNG LLC:

Delfin LNG LLC (“Delfin”) is currently developing Port Delfin, a floating liquefaction and export facility to be located in the Gulf of Mexico. As planned, Port Delfin consists of onshore gas compression facilities and a deepwater port that uses existing pipeline infrastructure in the Gulf of Mexico to transport natural gas offshore to four moored floating liquefaction vessels. Delfin has submitted an application to MARAD and the USCG for authorization to construct, own, and operate a deepwater port capable of exporting up to 12.0 MMtpa of LNG. Further information is available at www.delfinlng.com.
