

Flamel Technologies to Present at Ladenburg Thalmann 2015 Healthcare Conference

Lyon, France – September 15, 2015 – Flamel Technologies (NASDAQ: FLML) today announced that the Company will be presenting at the Ladenburg Thalmann 2015 Healthcare Conference to be held at the Sofitel Hotel in New York City on September 29, 2015. Michael Anderson, Chief Executive Officer of Flamel, is scheduled to present on Tuesday, September 29th at 2:00 p.m. Eastern Time.

Mr. Anderson's presentation will be webcast live and can be accessed by visiting the Investor Relations section of the Company's website at <http://www.flamel.com/investors/upcoming-events/>. A replay of the presentation will also be available and archived on the website following the event.

About Flamel Technologies - Flamel Technologies SA (NASDAQ: FLML) is a specialty pharmaceutical company utilizing its core competencies in formulation development and drug delivery to develop safer and more efficacious pharmaceutical products, addressing unmet medical needs and/or reducing overall healthcare costs. Flamel currently has approvals for and markets two previously Unapproved Marketed Drugs ("UMDs") in the USA, Bloxiverz[®] (neostigmine methylsulfate injection) and Vazculep[®] (phenylephrine hydrochloride injection). The Company intends to add to this branded business by creating additional products, focusing on the development of products utilizing Flamel's proprietary drug delivery platforms. Flamel currently has several products in development utilizing Micropump[®] (oral sustained release microparticles platform) along with its tangent technologies, LiquiTime[®] and Trigger Lock[™]. The lead project for Micropump[®] is sodium oxybate. LiquiTime[®] allows for the extended-release of liquid medicines (such as ibuprofen and guaifenesin) and Trigger Lock[™] is an abuse-resistant iteration of Micropump[®], designed specifically for long-acting opioids (such as hydromorphone). Additionally, the Company has developed a long acting injectable platform, Medusa[™], a hydrogel depot technology currently being studied with exenatide. Flamel's products are targeting high-value molecules and will utilize either the 505(b)(2) approval process for NDAs or biosimilar pathways ultimately approved by FDA and other regulatory authorities. The Company is headquartered in Lyon, France and has operations in St. Louis, Missouri, USA, and Dublin, Ireland. Additional information may be found at www.flamel.com.
